Leading Iowans in caring for our natural resources.

LAKES:

- Cedar Bend Lake in Linn County: Eat only 1 meal/week of common carp due to elevated levels of PCBs.
- Cedar Lake in Cedar Rapids: Eat only 1 meal/week of common carp and channel catfish due to elevated levels of PCBs.
- Lake Geode in Henry County: Eat only 1 meal/week of largemouth bass due to elevated levels of mercury.
- Mormon Trail Lake in Adair County: Eat only 1 meal/week of largemouth bass due to elevated levels of mercury.
- Nine Eagles Lake in Decatur County: Eat only 1 meal/week of largemouth bass due to elevated levels of mercury.
- North Banner Lake in Warren County: Eat only 1 meal/week of largemouth bass due to elevated levels of mercury.
- South Banner Lake in Warren County: Eat only 1 meal/week of largemouth bass due to elevated levels of mercury.

RIVERS:

- Pool 12 of the Mississippi River, which is the area between Lock and Dam 11 in Dubuque and Lock and Dam 12 at Bellevue in Jackson County: Eat only 1 meal/week of walleye, sauger, largemouth bass, smallmouth bass, white bass or northern pike due to elevated levels of mercury.
- The Cedar River from the Highway 218 bridge at Floyd (Floyd Co.) to the Iowa/Minnesota state line (39 mile stretch): Eat only 1 meal/week of smallmouth bass, walleye, and northern pike due to elevated levels of mercury.
- The Upper Iowa River from the State Highway 76 bridge in Allamakee County upstream to the County Road W-20 bridge in Winneshiek County, which is approximately 5.5 miles upriver (northwest) from Decorah (45 mile stretch): Eat only 1 meal/week of any species of fish due to elevated levels of mercury.
- The Volga River upstream of the Hwy C2W bridge at Volga in western Clayton County; including the Little Volga River and the North Branch Volga River: Eat only 1 meal/week of smallmouth bass due to elevated levels of mercury.
